

Improving the pleasure of boating...

new

STAZO SecuTred™ non skid deck sheet is the latest result of advanced research and technology of composite marine flooring. Specially selected cork granules and a special synthetic binder form this unique composition.

STAZO SecuTred™ non skid deck sheet has proven to exceed the high expectations, resisting exposure to all natural elements and most chemicals.

All-weather resistance

STAZO SecuTred™ non skid deck sheet has passed all tests for seawater resistance as well as multi-season exposure to continuously changing weather conditions.

UV resistance

STAZO SecuTred™ non skid deck sheet has been tested both in practice and in a climate room. Additionally, tests have been done in areas with extreme UV radiation. All tests have proven excellent UV resistance.

Durable and flexible

STAZO SecuTred™ non skid deck sheet is extremely flexible and does not crack or break up, even when exposed to the most extreme weather elements.

No coating required

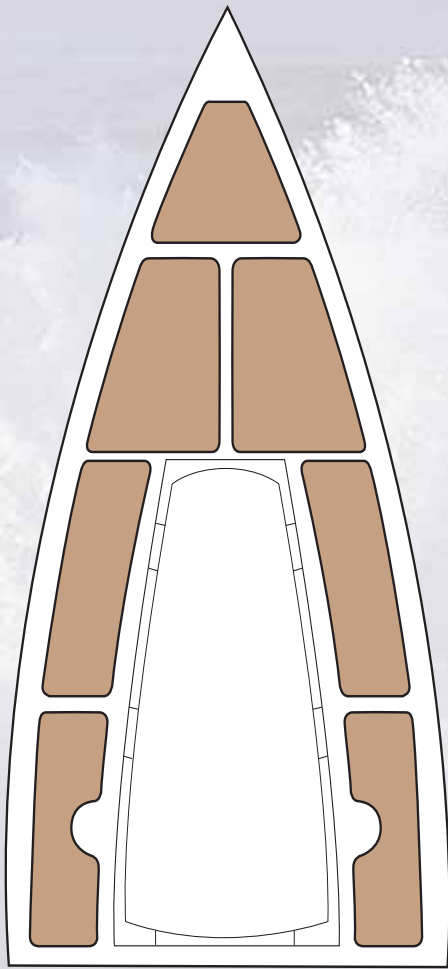

STAZO SecuTred™ non skid deck sheet does not require any protective coating. The product fades from honey brown to sand beige when exposed to UV radiation.

Non-skid properties

STAZO SecuTred™ non skid deck sheet has excellent non skid properties. Just keep the STAZO SecuTred™ non skid deck sheet clean and free from organic compounds and other pollutants.

SECUTRED™

an easy step into comfortable boating.

STAZO SecuTred™ non skid deck sheet is easy to cut or to trim and to install. Easy-to-follow installation instructions can be found on our web site: www.stazo.nl.

Maintenance

Simply wash STAZO SecuTred™ non skid deck sheet with fresh water and a normal household detergent. Scrub with a bristle broom and rinse with fresh water to remove the dirt.

Acoustical and thermal insulating

Compared to wood STAZO SecuTred™ non skid deck sheet has excellent insulation properties. It reduces temperature, vibrations and impact noise. The product absorbs less heat than conventional decks.

Pet nail resistant

You may take your quadruped friends aboard. STAZO SecuTred™ non skid deck sheet is resistant to scratching from pet toe nails.

Sizes

STAZO SecuTred™ non skid deck sheet can be purchased by the square meter or in rolls 1 meter wide. Standard thickness is 4 mm. Other thicknesses are available upon request.

Pre-cuts

STAZO SecuTred™ non skid deck sheet pre-cuts can be made on request in accordance to CAD files or template information.

Easy installation

STAZO SecuTred™ non skid deck sheet may be cut and trimmed easily with a standard utility knife or a pair of scissors. Apply the recommended adhesive with the appropriate spreader and apply the sheet.
