

Hunter 31

The new Hunter 31 displays the latest development from the Hunter Design Team, headed by Glen Henderson. A sharp entry for acceleration is complemented by generous hull volume to ensure excellent stability and performance. The 31's style is a fresh approach, strongly influenced by our growing international base.

The 1.88m (6'2") cockpit includes Whitlock's rack & pinion steering, Lewmar and Spinlock hardware, large cockpit, Hunter's signature arch and stern rail seats—all adding to the comfort and safety of your sailing adventures.

The interior features two private cabins, a generous u-shaped galley and large salon, all surrounded by warm varnished teak woods. Numerous solid wood handholds and functional storage areas ensure that your cruising needs are well attended.

The new 31 is available for immediate delivery after the Sydney Boat Show. Contact U.S.Yachts
