New PC based 12vDC Navigation System

Sydney, Australia, July 14, 2006 — Today MR Marine Electronics, announced InView Navigation PC System will be released at the Sydney International Boat Show, August 3 to 8. It will be on Display at the MR Marine-Nobeltec Stand 240-241.

“The InView Navigation System is a Navigation System based on our new InView Navigation Computer. Although not much larger than 5 CD Cases stacked on top of each other, the InView has the power to run the very latest Digital Radars and Sounders from Nobeltec-Jeppesen. We introduced the InView System for customers who wish to have a complete 12vDC PC based Navigation System ready to install in their vessel.” said Mark Rothwell, Senior Partner of MR Marine Electronics.

“The InView is preconfigured with Microsoft Windows XP Pro MCE, and your choice of either Nobeltec Visual Navigation Series or Nobeltec Admiral Software. Other standard features include DVD RW Drive, a Wireless Keyboard-Touchpad, 15” Aluminum LCD Monitor, and MR Marine’s new NavKeys . Options including Nobeltec Digital Radar and Sounders, Digital Television, Multiple Displays can be added”

The InView Navigation Computer at left, is powered by the latest Intel Pentium Mobile Duo Processor, has 1Gb of RAM and 80GB of hard disk. The system also includes Dual Output 3D video, High Definition audio, WiFi and Ethernet, up to 8 serial ports, One Firewire port, and two USB ports. A DVD/RW drive is also included for watching or writing DVD's.

MR Marine Electronics is a specialist in building and designing fully integrated Marine Computer Systems, and is the Australian Distributor for Nobeltec-Jeppesen Navigation Products including Software, Radars, and Sounders.
