WORLD WIDE RELEASE Nobeltec Software Version 9

Sydney, Australia, July 14, 2006 — Today MR Marine Electronics, announced Version 9 of Nobeltec Navigation Software will be released at the Sydney International Boat Show, August 3 to 8. It will be on Display at the MR Marine-Nobeltec Stand 240-241.

“MR Marine Electronics is proud to release for the first time in the World, Version 9 of the World’s Most Popular Navigation Software, Nobeltec Visual Navigation Suite and Nobeltec Admiral. Version 9 has many new features that will appeal to the Boating World, including for the first time a Sailing Version of Nobeltec Software. Aimed directly at the Yacht Racing, Nobeltec will be releasing a Sailing Plus Pack which will have everything the Yacht Racing Community needs in Navigation Software.” said Mark Rothwell, Senior Partner of MR Marine Electronics.

“Nobeltec Visual Navigation Suite 9 (VNS) sets new standards for powerful yet simple Navigation. VNS features include real-time tracking, quilting for seamless chart integration, an automatic Route-Wizard, unlimited route and waypoint creation, GPS upload/download support, night vision, intergrated ETA Calculator and Autopilot Support. Also included is the popular Tides and Currents Software with prediction Data for the World until 2100. Admiral adds Multi-Monitor Support, comprehensive target tracking, GlassBridge Network Support and Vessel Scaling. Admiral Network support allows the sharing of Radar, Sounder, NMEA Data and Vector Charts across the Network. Version 9 adds over 20 Major new improvements including Sailing Plus Pack, Tender Tracking Plus Pack, XM Weather Plus Pack, and AIS Tracking improvements”..... he continued
