Website : www.seawaterlight.com	Stand Number/ Location: Stand 610 - Hall 6

Model code of the new product: SEA WATER LIGHT

Description of new product :
Sea Recovery launches the new 45 watt Sea Waterlight under water yacht light

Unique Features / other information :

Designed for maximum resiliency and efficiency, Sea Recovery's engineers have put their 25 years of marine industry expertise into developing an under water light that will withstand harsh environments and provide luminous, ambient lighting. Using a scratch resistant, tempered glass lens and 316L stainless steel housing material, the Sea Waterlight is engineered to be highly durable. It is also uniquely designed, with the power supply fully integrated into the housing, giving it a reliable, contained, uni-body construction, engineered to withstand the harshest elements.

With its ultra bright 45 watt HID lamp, the Sea Waterlight incorporates an adjustable illumination angle, which can be electronically adjusted with the flip of a switch from 60 to 120 degrees, a convenient standard feature that no other under water yacht light offers.

Whether setting the atmosphere for your next gathering, viewing under water sea life, or enhancing your nighttime fishing experience, the Sea Waterlight is without comparison.
