--

<p>Description of new product :</p> <p>Icom IC-M304 brings the safety of DSC into everyone's reach</p> <p>Icom is proud to announce the introduction of the new IC-M304 VHF transceiver with DSC (Digital Selective Calling). The new IC-M304 offers "Made in Japan" quality at a price every one can afford.</p> <p>The most valuable benefit of the IC-M304 is the DSC capability. This is without doubt the most effective means of alerting other mariners that you are in need of emergency assistance. In the event of an emergency, all boats within range and fitted with DSC will be alerted to your emergency. The radio is connected to a GPS, to allow your longitude and latitude to be sent with any distress message. Unlike channel 16 the volume setting of the DSC alarm cannot be turned down, ensuring others can hear your alarm.</p> <p>The IC-M304 also boasts; Force 5 audio™, The New AquaQuake™ vibrating water draining feature, One touch channel 16, Dual / Tri watch scanning, A New extra large backlit display & is Waterproof (submersible to 1 meter IPX7).</p> <p>The IC-M304 VHF Marine Mobile Radio is a perfect match for the New floating IC-M33 VHF Marine Handheld Radio.</p>
