

**Monte Carlo 37 – a refined powerboat to fulfil all your desires!**

The new Monte Carlo range was created in response to the expectations of all those who like the modern design and glamour that embodies the Mediterranean spirit. It is only natural that, for this sporty boat with tight lines, Bénéteau called on an Italian designer, Pierangelo Andreani.

The first fast powerboat of the range is the Monte Carlo 37, a powerful and slender boat with two proper cabins and good headroom (up to two metres).

The Monte Carlo 37 continues the concept of the 'Air Step' hull, patented by Chantiers Bénéteau and already well reputed. It is powered by the new Volvo Stern Drive system with D4 2 x 260 HP (or D4 2 x 225 HP). On the Monte Carlo 37, acceleration, comfort and reduced fuel consumption rule.

Inside, we have welcomed an uncompromising Italian style with attractive spaces bathed in pleasant natural light and a contemporary homely design. The combination of fine materials, with woodwork in tones of cocoa and light oak and upholstery in light fabrics, gives this open boat a very serene and beautiful atmosphere. Particular care is given to the finishes and sound insulation.

The Monte Carlo 37, which will be unveiled on 1 December at the Paris Boat Show, will give all those who cruise, a flavour of the Mediterranean.

**Provisional general technical specifications**

Designer .....	Chantiers Bénéteau / Andreani
Hull length .....	11.29m
Maximum beam .....	3.70m
