Model code of the new product: Navnet 3D
--

<p>Description of new product :</p> <p>The wait is over, Furuno's NAVnet 3D is here! JN Taylor's Marine Electronics Distribution Division known here in Australia as Furuno Australia will debut the latest in Marine Navigation technology at the 2008 Sydney International Boat Show.</p> <p>NavNet 3D is a completely redesigned navigation suite that is a component based system. The brains of the system are based in its Multi Function Display (MFD) units where "Time Zero" technology has been adapted to ensure the fast chart redraw speeds. Designed for all size boats and applications, you can choose from an 8.4-inch, 12.1-inch or Black Box MFD, depending on your vessel size and need. From there, you can add on a variety of components to round out your package, such as the Ultra High Definition (UHD) Digital Radar Sensor, Furuno Digital Filter (FDF) Fish Finder, Weather Fax Receiver, GPS Receiver, Autopilot, AIS Receiver, Digital Instruments, IP Cameras and more. For more information visit www.furuno.com.au .</p>
