Website : www.one-marine.com.au www.epicboats.com	Stand Number / Location: 510

Model / code of the new product: Epic 23V

Description of new product :
Born in the sunshine of San Diego, Epic Boats was started with one goal in mind: Build a better wake boat from the ground up. From primitive drawings to complex CAD simulations, then onto model making and mold construction. On to testing and retesting and then, of course, lots of riding. Its taken a lot of time and energy to bring the "World's First Wake Boat" to life. Everything about this boat has been geared to the rider's enjoyment of the interior and the wake-specific design of this machine. Epic boats are made to improve wakeboarders' lives through innovative design, comfort, and functionality.
The 23V boasts a list of standard features designed to make your day on the water more enjoyable. In fact there are no options, the boat comes fully loaded.

Unique Features / other information :
