Website : www.sunfast3200.com	Stand Number / Location: Marina

Model / code of the new product: Sunfast 3200 / SF3200
--

Description of new product :
Conceived by award winning designer Daniel Andrieu, the Sun Fast 3200 is a whole new concept in production cruiser-racers that are offshore capable.

The innovative design concept incorporates such features such as a bow prodder for flying asymmetric kites, twin-rudder and full width traveller.

This is a yacht designed to be equally at home racing around the cans as it is raced offshore short-handed and so impressed the judges that it was awarded “European Yacht of the Year” in its size division.

Below the Sun Fast 3200 is quite remarkable for a yacht of its size in terms of space. With two full doubles aft, it also has a level of finish that makes it very comfortable for a yacht of this style.

Unique Features / other information :

- a very wide hull fitted with 2 rudders, a cast iron/lead keel, Sail drive engine;
- full Harken® deck gear;
- a wide cockpit with a tiller on each side;
- infusion constructed main bulkhead;
- an exceptional interior layout: two large double berths aft, central saloon, galley and chart table at foot of companionway, heads forward, watertight bulkheads etc.
