Company Representative : Duncan Stewart	Mobile contact : 0418 350 220
Website : www.coopersloop.com.au	Stand Number / Location: Marina TBA

Model / code of the new product: Cooper 745

Description of new product : *The Coopersloop is an elegant and simple boating concept. Modern, European design blended with a traditional hull-form and quality fittings and fixtures. The solid, lifeboat-derived displacement hull provides a high degree of inherent stability and fuel economy, and our boats cruise all weekend at a comfortable 20 km/h using around 2 litres/hour*

The Coopersloop is designed in Holland and manufactured under license by an established commercial boatyard in North-Eastern China. At 7.45m (just over 24 feet), the Coopersloop is a substantial family boat which provides a safe, very comfortable platform for up to 10 people.

Unique Features / other information : *The boats are fitted as standard with reliable Yanmar diesel engines and a huge list of innovative and sensible equipment, and a range of options such as teak decks, swim platform, electric fridge and bow thruster are also available. The Coopersloop's GRP hull, seating cushions, and hood/cover fabrics, are all available in a wide range of colours, providing a great opportunity for owners to customize their boats. Enjoy the easy sea-kindly motion that these boats offer while you explore your favorite part of the bay, the harbour, or Pittwater.*
