Website : http://www.sea-doo.com/en-AU/ http://www.brp.com/en-AU	Stand Number / Location:

Model / code of the new product: Evinrude E-TEC Hawk 25hp & 30hp

Description of new product : For 2010, the 2-cylinder Evinrude E-TEC 25hp and 30hp Hawk's offer cleaner power, hours of no-foul trolling and incredible fuel efficiency throughout the entire operating range. Even at idle speeds, these outboards produce a best-in-class 56 amps and the air intake design pulls air from the rear of the engine, resulting in better airflow for all throttle ranges, more power and less noise.

Unique Features / other information : BRP's Evinrude E-TEC outboard engines are renowned for their durability, quality and reliability. On top of no scheduled dealer maintenance for the first 3 years or 300 hours with no break in period, Evinrude E-TEC were the first and only outboard engines ever to receive the EPA's Clean Air Technology Excellence Award*. Evinrude outboard engines combine advanced two-stroke technology with an exceptionally smooth and responsive direct-injection system to deliver higher torque and superior throttle response.
