**Princess Yachts Australia presents the ultimate Sydney Boat Show Experience**

Monday 4th of July 2011. Gold Coast, Australia. Alan Paterson and the team from Princess Yachts Australia will be offering the ultimate boat show experience for owners, invited guests and visitors to their impressive display at Sydney International Boat Show from July 28 - August 1, 2011. Alan and his team pride themselves on the immaculate presentation of their latest show release models, and Sydney Boat Show will be no exception. Following on from recent sales of a number of new release models in their V Class and Motor Yacht series, Princess Yachts Australia will offer the latest 78 and 72 Motor Yachts and the all new Princess 64 from their flybridge series. With the awesome V85-S headlining their display of V Class sports yachts, Princess will also feature the all new V62 and V52 models.

The Sydney International Boat Show represents a first for a number of the models on display. The 72 Motor Yacht and Princess 64 will make their Sydney debuts at the show, with the first 78 Motor Yacht featuring the hard top with electric sunroof, to be available for inspection.

To ensure a relaxed boat show experience for their owners and invited guests, Princess will provide a fully serviced corporate café facility for a relaxing environment away from the show crowds, whilst offering Chef prepared meals and beverages for the duration of the show. And for those owners and invited guests who can't make it to the show during opening hours, Princess will host casual drinks and delicious canapés each evening at the close of the show.

For any Princess owners considering attending the show, please call Alan and the team today so they can ensure a most relaxed and enjoyable boat show experience for you and your guests.
