Model / code of the new product: KVH TracPhone V3

Description of new product :
A complete end-to-end satellite communications solution that includes a 37cm gyro-stabilised marine satellite antenna in an ultra-compact housing, below-decks antenna control unit and modem to, all powered by ViaSat ArcLight® spread spectrum technology to support seamless global roaming.

Unique Features / other information :
The world's smallest maritime VSAT antenna from KVH is available now in Australia. Measuring just 37cm in diameter, the compact KVH TracPhone V3 will change the way mariners think about satellite communications. This fully stabilised antenna with powerful ViaSat ArcLight® spread spectrum modem offers easily accessible, faster data speeds, and significantly lower airtime rates.
