**Eua Island** is a destination for the adventurous traveller and is the centre of ecotourism in Tonga. Eua has unique geographical characteristics from the dramatic cliffs along the east coast to the low lying beaches on the west side. Eua National Park is the largest in Tonga and offers some amazing treks through the lush tropical rainforest.

**Snorkeling with Whales:** The island of Eua harbours crystal clear waters which during the months of July to October are graced with the presence of Humpback Whales! Swimming with these gentle giants of the sea, listening to their hypnotic singing under water and being graced by their presence in these warm waters create a spiritual bond experienced in very few places in the world.
